A. Find a Location for Your Radio and Mount It

1. To be mounted in vehicle door:
   - Choose the location provided. Attach the vehicle dock to the vent louver.

2. To be mounted in vehicle vent:
   - Mount the magnetic mount antenna to the inside of your vehicle's back window.
   - Be sure to install the magnetic mount antenna so that the rubber boot is against the glass.

3. Connect the Audio

   - Connect the audio cable to the radio.
   - Select the preset stations you want to hear.
   - Use the FM Preset 1-5 to program and match the FM station.

   - Select an FM station on your radio and press and hold the button for at least 5 seconds.
   - If you have a good signal, you should only be able to access the FM Presets list. Then choose either A, B, or C below.

   - Power Adapter:
     - Connect Power Adapter.

   - Cassette Adaptor:
     - Connect Cassette Adaptor.

   - Auxiliary Input:
     - Connect an auxiliary input — like a direct connection, an FM device, or a direct connection.

   - BE SMART:
     - When adjusting the angle of the radio, be sure to adjust the car door to fit your needs.

   - BE SAFE:
     - Make sure your radio is not in a place where it could interfere with the car's electrical system.

   - BE CAREFUL:
     - Not properly placing the antenna can create safety hazards during an accident.

   - BE SMART:
     - When adjusting the angle of the radio, be sure to adjust the car door to fit your needs.
