1. Find a Location for Your Radio and Mount It
   a. Select a flat surface for the Dash Mount with ample room for Stratus 6. Avoid mounting on leather surfaces.
   b. Choose a location that doesn’t interfere with the driver’s vision or access to driving controls, one that won’t interfere with the deployment of airbags or other safety equipment, and makes Stratus 6 easily accessible for operation. (Airbag locations are typically marked with “SRS” logos.)

2. Mount the Magnetic Mount Antenna
   a. Connect the Magnetic Mount Antenna to the PowerConnect Vehicle Dock.
   b. Route the antenna cable to Stratus 6. Include enough slack in your routing to accommodate open doors or the hood latch. Coil any excess cable in a hidden location and keep it away from any vehicle wire or equipment, and make sure the cable routing instructions for all types of vehicles.

3. Route the Antenna Cable
   a. Connect the Power Adapter into your vehicle’s cigarette lighter or power adapter socket.
   b. Mount the Magnetic Mount Antenna outside your vehicle, on a clean and dry horizontal surface that will always face the sky.
   c. Mount the PowerConnect Vehicle Dock on a flat surface using the provided screws. If you plan to use the wire guide channel across the extended vent clamps.

4. Connect the PowerConnect Power Adapter
   a. Place Stratus 6 into the dock and press the Mount button.
   b. Plug the other end into the Power connector on the side of the PowerConnect Vehicle Dock.
   c. Plug the Magnetic Mount Antenna connector into the silver ANT icon on the back of your radio.
   d. Pull the cable out and route it to Stratus 6.
   e. Route the cable out of the molding and into the rubber molding and run it to the nearest corner.
   f. Tuck the antenna cable under the windshield pedal or controls.

5. Verify Signal Reception
   a. Be sure the vehicle is outside and the antenna has a clear view of the sky.
   b. Connect the PowerConnect Power Adapter into your vehicle’s cigarette lighter or power adapter socket.
   c. Use the Alcohol Prep Pad to clean the mounting surface before you begin the installation.
   d. Attach the Dash Mount to the PowerConnect Vehicle Dock using the 4 provided screws. If you plan to use the wire guide channel across the extended vent clamps.
   e. Mount in place for 30 seconds. Allow the adhesive to cure for 2-4 hours.
   f. Pull Clamp Out Towards You.
   g. Push until hooked on the rear of the vent louver. Rest the foot against the bottom of the vent.
   h. Insert the vent mount into the vent opening.
   i. You can tilt the dock mounting plate in your preferred direction.
   j. The air temperature needs to be at least 15°C/60°F to install the Dash Mount. If needed, turn on the heater in your vehicle.

NOTE:
- Connect Vehicle Dock.
- Select button.
- Press the Menu button to scroll to and highlight antenna signal strength.
- Verify that you are receiving the SiriusXM signal. The radio should be tuned to channel 184, the Preview channel.
- Be sure the vehicle is outside and the antenna has a clear view of the sky.
- Select button, then press and hold to return to channel 184, the Preview channel.

TIP:
- Use the Alcohol Prep Pad to clean the mounting surface before you begin the installation.
- Attach the Dash Mount to the PowerConnect Vehicle Dock using the 4 provided screws. If you plan to use the wire guide channel across the extended vent clamps.
- Mount in place for 30 seconds. Allow the adhesive to cure for 2-4 hours.
- Pull Clamp Out Towards You.
- Push until hooked on the rear of the vent louver. Rest the foot against the bottom of the vent.
- Insert the vent mount into the vent opening.
- You can tilt the dock mounting plate in your preferred direction.
- The air temperature needs to be at least 15°C/60°F to install the Dash Mount. If needed, turn on the heater in your vehicle.
- Select button, then press and hold to return to channel 184, the Preview channel.

IMPORTANT!
- Use the Alcohol Prep Pad to clean the mounting surface before you begin the installation.
- Attach the Dash Mount to the PowerConnect Vehicle Dock using the 4 provided screws. If you plan to use the wire guide channel across the extended vent clamps.
- Mount in place for 30 seconds. Allow the adhesive to cure for 2-4 hours.
- Pull Clamp Out Towards You.
- Push until hooked on the rear of the vent louver. Rest the foot against the bottom of the vent.
- Insert the vent mount into the vent opening.
5. Connect the Audio through your vehicle's FM radio.
6. To do this, follow the steps below:

   a. Find and make a list of all available FM channels in your area that are not being used by an FM channel. The selected FM channel will be confirmed on the display screen. Press and hold the ANT button to set your Stratus 6 to transmit on the same FM channel that you have selected on your vehicle's FM radio. If you are using the wire guide channel across the back of the Vehicle Dock to organize the wires, place the wires in the guide and then tighten the 4 screws to securely attach the mount. The installation is complete.

   b. You should now hear the Sirius Preview channel number. The installation is complete.

   c. SiriusXM 12 Months Limited Warranty

7. Subscribe to SiriusXM:

   a. Turn on the Stratus 6. After the startup sequence, it will update the firmware to the latest version and display mode. Be sure to set your Stratus 6 before using it.

   b. Press to turn Stratus 6 on and off. Press and hold to return to the main display screen.

   c. Press to search for the last channel you were listening. Press to return to the previous channel to which you were listening. Press and hold to go back to the previous channel.

   d. You can also access the menu by pressing the MENU button and selecting the FM settings. Sirius ID can also be accessed by pressing the 'Sirius ID' button.

   e. You should now see your Stratus 6's unique 12-digit Sirius ID number (SID). Write the SID number down. Press the MENU button and select 'FM Channels'. Press the SELECT button to select the FM channel. Press the SELECT button again to confirm the channel.

   f. The selected FM channel will be confirmed on the display screen.

   g. Repeat steps 5 and 6 if you want to change the FM channel.
