**Pick a Spot for Your Radio**

1. Choose a location that doesn't interfere with the driver's vision or access to driving controls, one that won't impair visibility.
2. Select a flat surface for the Dash Mount with ample room for Onyx Plus. Avoid mounting on leather surfaces.
3. Orient the adhesive foot so that Onyx Plus is easily accessible. Loosen the knob and adjust the foot to the desired location.
4. Once the cables have been attached to the dock, clean the mounting area to ensure a secure grip.
5. Mount the Magnetic Mount Antenna as follows:
   - Place the vent mount into the vent opening.
   - Push until hooked on the rear of the vent louver. Rest the foot against the bottom of the vent.
   - Some vents have recessed louvers. If yours are recessed, remove the regular vent clamps and install the slide clamp to left.
   - Repeat to replace the remaining of the vehicle installation so that the cables are attached to the dash.
6. Mount the Magnetic Mount Antenna rear view:
   - Slide Clamp to Left.
   - Mount in place for 30 seconds. Allow the adhesive to cure for 2-4 hours.
   - Once the surface is dry, remove the adhesive liner. Press and hold the Dash Mount foot until it snaps into place.
7. Before you attach the Dash Mount to the dash, skip ahead and finish the remainder of the vehicle installation so that the cables are attached to the dash.
8. Proceed to the next step to complete the installation.

**Connect the Audio to Your Vehicle's Stereo**

1. Tune your vehicle's FM radio to your preferred channel.
2. Use a similar blunt tool to help hide wires along the windshield trim.
3. Use a tool like a blunt plastic putty knife, a credit card, a plastic knife, or the powered edge of the trunk.
4. Use the CAUTION! STOP feature in the Onyx Plus. PowerConnect plays the audio through your vehicle's stereo system or FM radio using one of the following options:
   - For direct connection, use the green AUDIO ANT.
   - For Aux In Cable, use the RED AUDIO ANT.
   - For Cassette Adapter, use the Cassette Adapter.
   - For FM Direct Adapter, use the FM Direct Adapter.
5. PowerConnect Vehicle Dock:
   - If you have connected the audio in step 3 using the Aux In Cable or Cassette Adapter, continue with step 6.
   - If you have connected the audio using the green AUDIO ANT, proceed to the next step.
   - If you have connected the audio using the RED AUDIO ANT, proceed to the next step.

**Connecting to the Vehicle's Stereo System or FM Radio**

1. Choose a channel that isn't being used by any FM radio station in your area. When you find an available FM channel, turn on your vehicle's FM radio. Start at 88.1 and use the 'Manual' tune function on your vehicle's FM radio, then you need to ensure that the Onyx Plus and your vehicle's FM radio are tuned to the same available FM channel.
2. Set Your Onyx Plus to Transmit on the Same FM Channel:
   - Tune your Vehicle's FM Radio to 99.3 FM. Press the Select button. i.e., 99.3 to 100.3. Press the Select button to select the FM channel.
   - Use the FM Channels feature in the Onyx Plus. PowerConnect plays the audio through your vehicle's stereo system or FM radio using one of the following options:
     - For direct connection, use the green AUDIO ANT.
     - For Aux In Cable, use the RED AUDIO ANT.
     - For Cassette Adapter, use the Cassette Adapter.
     - For FM Direct Adapter, use the FM Direct Adapter.
   - If you have connected the audio in step 3 using the Aux In Cable or Cassette Adapter, continue with step 6.
   - If you have connected the audio using the green AUDIO ANT, proceed to the next step.
   - If you have connected the audio using the RED AUDIO ANT, proceed to the next step.

**Connecting the Magnetic Mount Antenna Cable Inside the Vehicle**

1. PowerConnect Antenna:
   - Plug the antenna into the AUX IN adapter socket. Then plug it into the green AUDIO ANT.
   - Antenna can be routed directly into the trunk.
   - Hide the Magnetic Mount Antenna Cable Inside the vehicle's stereo system or FM radio using one of the following options:
     - For direct connection, use the green AUDIO ANT.
     - For Aux In Cable, use the RED AUDIO ANT.
     - For Cassette Adapter, use the Cassette Adapter.
     - For FM Direct Adapter, use the FM Direct Adapter.
   - If you have connected the audio in step 3 using the Aux In Cable or Cassette Adapter, continue with step 6.
   - If you have connected the audio using the green AUDIO ANT, proceed to the next step.
   - If you have connected the audio using the RED AUDIO ANT, proceed to the next step.

Signal Indicator

1. Power
   - PowerConnect Vehicle Dock which came with your Onyx Plus, you will have to complete some additional instructions before you can set Onyx Plus to transmit on an FM channel.

2. Connect (continued)
   - Make a note of your XM Radio ID. You can find it on channel 1 or 2, whichever is active.
   - When your service is activated, your Onyx Plus will receive all channels to which you have subscribed.
   - If the signal reception is blocked by a tree, a building, a bridge, or by anything on the antenna’s view of the sky, you may need to try other FM channels on your list or use another FM channel or a different audio connection method.

TIP!
   - You can follow the built-in activation menu.
   - By phone: Call 1-888-539-7474.
   - Online: Go to siriusxm.ca/userguides.
   - Press the TuneMix/TuneScan button. A series of screens will guide you through the activation process. Follow the instructions.

NOTE!
   - You May Need to Try Other FM Channels on Your List or Use Another FM Channel or a Different Audio Connection Method.

3. Navigation Basics
   - Use the Left and Right buttons to scroll through lists and highlight items in lists.
   - Use the Up and Down buttons to line up; also press to scroll through channels through the channel lineup; also press to scroll through favorites.
   - Press to preview and tune to the previously tuned channel.
   - Press to begin TuneMix; Press and hold to begin TuneMix/TuneScan.
   - Press to end TuneMix/Scan and continue playing the current channel.
   - Press to return to the previously tuned channel.
   - Select button to browse the menu hierarchy or to select a highlighted item.
   - Button to cancel the activation process.
   - The Onyx Plus User Guide is available at siriusxm.ca/userguides.
