1 Install the Magnetic Mount Antenna

Mount the Magnetic Mount Antenna on the outside of your vehicle, on a horizontal surface that is clean and dry. Be sure that the area is free of any magnetic surfaces or objects that could interfere with the magnetic mount. If your vehicle has a metal door frame, be sure to mount the magnetic mount on a metal surface, such as the rear side of the windshield. If you are unsure of the location, refer to the “Mounting Instructions” on page 2 of the User Guide.

2 Find a Location for the Snap!

Snap! is designed to be easy to install and remove. Simply place the Snap! on a horizontal surface that is clean and dry, and then route the cables through your vehicle as desired. Be sure to follow the installation instructions provided in the User Guide for additional help.

3 Activate Snap!

Before proceeding with connection, make sure that the Snap! has been installed correctly. If the Snap! is not installed correctly, you will not be able to activate it. If you are unable to activate the Snap!, refer to the “Troubleshooting” section of the User Guide for additional help.

4 Connect the Audio

To connect the audio, you will need to use the provided Aux In Cable. Connect the Aux In Cable to the auxiliary input jack on your vehicle’s stereo system, and then press the “Power” button on the Snap! to turn it on.

- Option 1: Best

You should now hear the XM audio. The installation is complete; proceed to step 5 to subscribe.

- Option 2: Cassette Adapter

You will need to use the Cassette Adapter to connect the Snap! to your vehicle’s stereo system. Insert the Cassette Adapter into the auxiliary input jack, and then press the “Power” button on the Snap! to turn it on.

- Option 3: Power Adapter

You will need to use the Power Adapter to connect the Snap! to your vehicle’s stereo system. Insert the Power Adapter into the auxiliary input jack, and then press the “Power” button on the Snap! to turn it on.

- Option 4: Aux In Cable

You will need to use the Aux In Cable to connect the Snap! to your vehicle’s stereo system. Insert the Aux In Cable into the auxiliary input jack, and then press the “Power” button on the Snap! to turn it on.

You will then be notified about the length of the Courtesy Period. You will be able to listen to XM radio for 30 days, after which you will need to subscribe to continue receiving the XM signal.

5 Complete the Installation

If you are not satisfied with the audio connection, you may need to adjust the audio level. You can do this by using the “Set Audio Level” option on the Snap!.

- Option 1: Best

You will need to use the “Set Audio Level” option on the Snap! to adjust the audio level. Press the “Power” button on the Snap! to turn it on, and then select the “Set Audio Level” option to adjust the audio level.

- Option 2: Cassette Adapter

You will need to use the “Set Audio Level” option on the Snap! to adjust the audio level. Press the “Power” button on the Snap! to turn it on, and then select the “Set Audio Level” option to adjust the audio level.

- Option 3: Power Adapter

You will need to use the “Set Audio Level” option on the Snap! to adjust the audio level. Press the “Power” button on the Snap! to turn it on, and then select the “Set Audio Level” option to adjust the audio level.

- Option 4: Aux In Cable

You will need to use the “Set Audio Level” option on the Snap! to adjust the audio level. Press the “Power” button on the Snap! to turn it on, and then select the “Set Audio Level” option to adjust the audio level.

6 Set your Snap! to listen to the XM channel that you have selected to enjoy.

- Option 1: Best

Press the “Power” button on the Snap! to turn it on, and then select the channel that you want to listen to. You will then be notified about the length of the Courtesy Period. You will be able to listen to XM radio for 30 days, after which you will need to subscribe to continue receiving the XM signal.

- Option 2: Cassette Adapter

Press the “Power” button on the Snap! to turn it on, and then select the channel that you want to listen to. You will then be notified about the length of the Courtesy Period. You will be able to listen to XM radio for 30 days, after which you will need to subscribe to continue receiving the XM signal.

- Option 3: Power Adapter

Press the “Power” button on the Snap! to turn it on, and then select the channel that you want to listen to. You will then be notified about the length of the Courtesy Period. You will be able to listen to XM radio for 30 days, after which you will need to subscribe to continue receiving the XM signal.

- Option 4: Aux In Cable

Press the “Power” button on the Snap! to turn it on, and then select the channel that you want to listen to. You will then be notified about the length of the Courtesy Period. You will be able to listen to XM radio for 30 days, after which you will need to subscribe to continue receiving the XM signal.

If you are still unable to listen to XM radio, please contact the XM customer service at 1-800-XM-RADIO (1-800-967-2346) for additional help.
Snap! works on the XM network and requires a XM subscription. Before you can start listening, please do the following:

A. Make sure your Snap! is turned on, and receiving the XM signal so that you can hear the XM audio.
B. Make a note of your Radio ID. You can find it by pressing the menu button, or on a label on the bottom of the gift box, and on the label on the back of your Snap!.
C. To subscribe:
   • Online: Go to www.siriusxm.ca
   • By phone: Call 1-877-GET-XMSR (1-877-438-9677)
D. Activation usually takes 10 to 15 minutes, but may take up to an hour. We recommend that your Radio remain on until subscribed. Once your radio is subscribed, any messages related to the Courtesy Period will not appear on the display.
