Step 1: Select a location for your Onyx EZ.

Step 2: Place and Aim the Indoor/Outdoor Antenna.

Step 3: Connect the Audio.

Step 4: Activate.

---

Step 1: Select a location near a wall outlet. Choose a location that is away from any walls or window. The antenna should be placed where it will be easily accessible and provide good visibility of the display, but should not be located near cords that will block the view of the display.

Step 2: Place the antenna on the windowsill, making sure it faces the glass and you are receiving the XM signal, you will be facing south. Is there a window in the direction you're facing?

Step 3: Use the antenna to browse the channel lineup. Also press to scroll through options, press and hold to turn Onyx EZ on and off.

Step 4: Follow the directions on each successive screen until you complete the subscription process.
What's in the Box?

1. Onyx EZ Radio
