Step 1: Installing the Home Dock

1. Connect the Indoor/Outdoor Home Antenna.
   - The Home Dock can be connected to your home stereo system or powered speakers, or directly to a pair of powered speakers.
   - Connect the 3.5 mm Stereo Audio Cable to the AUDIO IN connector at the rear of the Home Dock, and plug it into the stereo's inputs. This method will also work if you are connecting to a home stereo system, or to a pair of powered speakers. If you are connecting to a home stereo system, see the following section. If you are connecting to a pair of powered speakers, refer to the next panel.

2. Connect the Power Adapter.
   - The Home Dock can be connected to your home stereo system through the AUX IN or LINE IN connection.
   - Connect the Home Power Adapter to the DC5V connector at the rear of the Home Dock, and plug it into an electrical outlet.

   - Place the radio into the Home Dock, aligning the connector on the radio with the connector on the Home Dock, and gently press the Stratus 7 with the connector on the Home Dock, and gently press the Power button on the radio to turn it on.

(continued)

Step 3: Activate Your Service

1. Make a note of your Sirius ID (SID). You can find it on channel 0, on a label on the bottom of the gift box, and on the label on the back of your Stratus 7.
2. Make sure your Stratus 7 is properly installed and receiving the Sirius signal so that you can hear the radio.
3. Go to siriusxm.ca/activate or siriusxm.ca/userguides, you can scroll and tune other channels. Activation usually takes 10 to 15 minutes, but may take up to an hour. We recommend that your radio remain on until activated.

Other Indoor/Outdoor Antenna Installation Suggestions

- Move the antenna closer to the window, ideally one that is south. Is there a window in the direction you're facing? Not sure which way is south? Think about where the sun rises (in the east) and sets (in the west). Then place the antenna towards the window where you may get the strongest signal. If you find you are getting a signal, but it is weak, try turning the antenna slightly to the left or right, or moving it up or down. See which way is south, and what window may offer an unobstructed view of the sky.
- You can make use of an unobstructed view of the sky.
- Then place the antenna towards the window where you may get the strongest signal. If you find you are getting a signal, but it is weak, try turning the antenna slightly to the left or right, or moving it up or down. See which way is south, and what window may offer an unobstructed view of the sky.

 SiriusXM 12-Month Limited Warranty

What This Warranty Covers

Subject to the conditions and limitations set forth below, Sirius XM Canada Inc. ("SiriusXM") warrants to the original retail purchaser of a SiriusXM Radio and Home Kit against defects in material and workmanship for 12 months from the date of purchase for the original retail purchaser. This warranty gives you specific legal rights and you may also have other rights, which vary from province to province. The duration of this written warranty shall be for 12 months from the date of purchase by the original retail purchaser. Any implied warranty of merchantability, fitness for a particular purpose, or any other implied warranty, is limited in duration to 12 months from the date of purchase. Some jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you. This warranty does not cover: products sold as used, as is, reconditioned or refurbished; software stored on internal or removable memory; non-rechargeable batteries, surface preparation cleaners, adhesive pads, fasteners, and ear-buds; costs incurred for installation, removal or reinstallation of the product; correction of installation problems, such as elimination of externally generated static or noise and antenna placement and aiming; defects or damage caused by alteration, improper installation or misuse of the product; damage from power surges, inclement weather, or acts of nature; damage caused by the use of accessories or products not approved by SiriusXM; no internal and external buttons and knobs; disconnecting or cutting the cables; self installation instructions and tips are provided for your convenience. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow the vehicle to be operated safely and without distraction. SiriusXM shall have no liability for any damage or injury resulting from the installation or use of any third party products. It is your responsibility to perform an installation. SiriusXM shall have no liability for the knowledge, skills and physical ability required to properly install any product. You, as the owner of the vehicle, are responsible for ensuring that Sirius XM devices and service are installed by a qualified installer.

How to Obtain Warranty Service

To obtain warranty service, please call Customer Care at 1-888-539-7474. You will be required to provide proof of purchase and a description of the defect. You must prepay the cost of shipping the product to an approved service center.

What This Warranty Does Not Cover

- Loss or damage to the equipment caused by misuse, neglect, accident, unauthorized service or other acts not arising out of defects in material or workmanship.
- Loss or damage to the equipment caused by alteration, improper installation or misuse of the product.
- Loss or damage to the equipment caused by the use of accessories or products not approved by SiriusXM.
- Loss or damage to the equipment caused by power surges, inclement weather, or acts of nature.
- Loss or damage to the equipment caused by the use of accessories or products not approved by SiriusXM.
- Loss or damage to the equipment caused by self installation.
