**Mount the Magnetic Mount Antenna**

1. Center the end of the cable on the Magnetic Mount to ensure proper signal reception and then press and hold the Mount button on the bottom of the cable. (Tilt as needed.)

2. Connect Vehicle Dock using the 4 provided screws. If you plan to use the wire guide channel across the back of the Vehicle Dock to organize the wires, do not fully tighten the screws. If not, tighten the screws.

3. The air temperature needs to be at least 15°C/60°F to install the Dash Mount. If needed, turn on the heater in your vehicle.

**DASH MOUNT METHOD**

1. Find a Location for Your Radio and Mount It

   - IMPORTANT: Mount in place for 30 seconds. Allow the adhesive to cure for 2-4 hours.
   - IMPORTANT: The air temperature needs to be at least 15°C/60°F to install the Dash Mount. If needed, turn on the heater in your vehicle.
   - IMPORTANT: Clean the mounting surface in the vehicle with the alcohol preparation pad and let it dry thoroughly.

2. Orient the adhesive foot so that Stratus 6 is easily accessible. Loosen the knob and adjust the adhesive foot to position Stratus 6.

3. Slide the Dash Mount to the back of the Vehicle Dock to organize the wires, do not fully tighten the screws. If not, tighten the screws.

   - TIP: The User Guide has detailed antenna cable routing instructions for all types of vehicles.

4. Choose the location for the antenna according to your type of vehicle. Center it between the left and right sides, and away from other antennas.

5. Mount the Magnetic Mount Antenna outside your vehicle, on a clean and dry horizontal surface that will always face the sky.

**VENT MOUNT METHOD**

1. Select a vent with ample room for Stratus 6, one that won’t interfere with the deployment of airbags or other safety pedals or controls.

2. Some vents have recessed louvers. If yours are recessed, remove the regular vent clamps and install the extended vent clamps.

3. Mount in place for 30 seconds. Allow the adhesive to cure for 2-4 hours.

   - TIP: The User Guide has detailed antenna cable routing instructions for all types of vehicles.

4. Connect Vehicle Dock using the 4 provided screws. If you plan to use the wire guide channel across the back of the Vehicle Dock to organize the wires, do not fully tighten the screws. If not, tighten the screws.

5. Verify Signal Reception

   - IMPORTANT: The air temperature needs to be at least 15°C/60°F to install the Dash Mount. If needed, turn on the heater in your vehicle.

   - IMPORTANT: Clean the mounting surface in the vehicle with the alcohol preparation pad and let it dry thoroughly.

   - IMPORTANT: The User Guide has detailed instructions on how to connect the PowerConnect Power Adapter.

   - IMPORTANT: The User Guide is available at siriusxm.ca/userguides.
**6 Connect the Audio**

Connect the Audio using one of the following options:

- **Option 1: Best:**
  - Use the SiriusXM vehicle Dock module or the SiriusXM Starmate 8 tuning head.
  - The SiriusXM Stratus 7 works on the Sirius network and requires a Sirius subscription.

- **Option 2: Good:**
  - Use the SiriusXM FM Transmitter included with your Stratus 7.

**Instructions**

- Find and make a list of all available FM channels in your area that are not being used by an FM radio:
  - Pick the first FM channel on your list.
  - Tune your vehicle's FM radio to this FM channel.

**TIP!**

- Do not park your vehicle in a garage or enclosed area. The User Guide is available at siriusxm.ca/userguides.

**Installation**

- Insert the SiriusXM Vehicle Dock or SiriusXM Starmate 8 into the dashboard mount.
- Secure the mount using the 4 screws provided.
- Cross the back of the Vehicle Dock to organize the wires and place the wires in the wire guide.
- If you are using the wire guide, place the wires in the wire guide and then tighten the 4 screws to securely attach the mount. The installation is complete.

**Start Using**

- Use the provided aux in cable.
- Plug one end of the cable into the aux in jack on your vehicle's stereo system, if your vehicle's stereo system has an auxiliary input jack.
- Use the provided FM Puck to tune in to your favorite channel.
- Tune your vehicle's FM radio to the channel you want to listen to.
- Tune to channel 0 to display the Sirius Preview.
- You should now hear the Sirius Preview.

**7 Subscribe**

- Have your credit card handy and visit siriusxm.ca/activate to subscribe.
- If your vehicle's stereo system has an auxiliary input jack, if your vehicle's stereo system has an auxiliary input jack.
- Select button to play from the auxiliary input source.
- You are now ready to begin enjoying SiriusXM!
