

Subscription Options

Lynx allows you to connect to SiriusXM Satellite Radio, SiriusXM Internet Radio, or both. Connecting to both services provides you with the complete experience, giving you access to all of the features Lynx has to offer. Whether you're in your home, in your vehicle*, out walking or jogging, or within range of a Wi-Fi® network, you'll always have a variety of SiriusXM content available.

SiriusXM Internet Radio provides the ability to listen to SiriusXM using a Wi-Fi connection in your home, office, or anywhere there is a hotspot. Listen to live Internet Radio, or listen to On Demand shows that previously aired on SiriusXM. When you activate your SiriusXM Internet Radio subscription you will create the credentials (username and password) that allow Lynx to connect and receive service. You can also use your credentials to enjoy SiriusXM Internet Radio on your computer or other compatible device.

SiriusXM Satellite Radio adds additional exciting features such as Radio Replays, which saves and stores music from your favourite channels so you can listen to them anywhere, anytime. Another great feature is Tune Start, which plays the current song or show from the beginning when you tune to one of your favourite channels. Use the record feature to record your favourite channels and shows, and then listen to them anywhere, anytime. Schedule recordings for upcoming shows, or to record a channel at a specific date and time. For the sports fan, set Game Alerts for your favourite sports teams and be alerted when they begin playing a game. Easily tune to the game with a tap. If you're listening in your vehicle, you'll have live Satellite Radio anywhere you drive in the SiriusXM coverage area.

Remember, you can subscribe to both services at the same time by calling **1-877-438-9677**.

Install the Home Dock and Radio, and Connect an Audio Device

Select a location in close proximity to your stereo system or powered speakers for the SiriusXM Lynx Home Dock. The location should be easily accessible and provide good visibility of the display, but should not be located where it will be in direct sunlight, which will reduce the visibility of the display screen.

- Connect the Home Power Adapter to the **red POWER** connector at the rear of the dock, and plug it into an outlet.
- To get the complete SiriusXM Lynx experience, you will need to connect the Indoor/Outdoor Home Antenna to the **silver ANT** connector at the rear of the dock.
- Place Lynx into the dock and press the **Power** button on the top of Lynx for 3 seconds to power on.

- Lynx will automatically connect via **Bluetooth®** to the dock. The **Bluetooth** Indicator Light will blink during the connection process, and remain on when connected. If for any reason Lynx fails to connect to the dock, see the section "**Bluetooth Connections**" for instructions on manually connecting to the dock.
- Using the provided Stereo Audio Cable, connect the single connector to the **green AUDIO** connector at the rear of the dock.
 - Connect the white left and red right Stereo Audio Cable connectors to any available input other than PHONO on your stereo system. (If your stereo's inputs are marked red and black, connect the white plug to the black input.)
 - Turn the stereo system On, and set the input on your stereo system for the input you have connected to, such as the AUX In or LINE In connection.

- Lynx will automatically connect via **Bluetooth®** to the dock. The **Bluetooth** Indicator Light will blink during the connection process, and remain on when connected. If for any reason Lynx fails to connect to the dock, see the section "**Bluetooth Connections**" for instructions on manually connecting to the dock.
- Connect the powered speakers to the **green AUDIO** connector at the rear of the dock.
 - Plug the powered speakers into a wall outlet.
 - Turn On the powered speakers.

Once connected, you can remove Lynx from the dock and carry it with you.** To listen to Satellite Radio, or to use the Remote Control, Lynx must be in the dock.

Bluetooth Connections

The SiriusXM Lynx Home Dock incorporates **Bluetooth** and allows for a wireless stereo audio connection with your Lynx Radio. This allows you to take your Lynx out of the dock and carry it with you and manage your listening experience up to 30 feet away from your dock.** (Listening to Satellite Radio, or using the Remote Control, requires Lynx to be inserted in the dock.)

You can also use **Bluetooth** to connect Lynx with a **Bluetooth** stereo audio streaming device which uses the A2DP profile, such as headphones, earbuds, speakers, etc.

To Automatically Connect Lynx to the SiriusXM Lynx Home Dock:

Connecting your Lynx and SiriusXM Lynx Home Dock could not be easier. Simply insert your Lynx Radio into the dock and it will automatically connect.

- Insert Lynx into the dock. Lynx must have **Bluetooth** turned on. (Tap **Home** , tap **>**, tap **Connect** , tap **Bluetooth On/Off** to turn it on.)
- The **Bluetooth** Indicator Light on the dock will blink rapidly 3 times and then remain on indicating that your Lynx is now connected.

To Reconnect Lynx to the SiriusXM Lynx Home Dock:

There are two ways to reconnect Lynx to the dock when Lynx is not in the dock:

- Tap the **Bluetooth**  button on the dock.
- Tap **Home** , tap **>**, tap **Connect** , and tap the **SiriusXM Lynx Home Dock** name in the list.

To Manually Pair and Connect Lynx to the SiriusXM Lynx Home Dock:

- Tap the **Bluetooth**  button on the dock. The **Bluetooth** Indicator Light will blink slowly.
- On Lynx, tap **Home** , tap **>**, tap **Connect** .
- From the **Bluetooth Settings** menu tap **Bluetooth On/Off** to turn it on, if it's not already on. A check mark will appear in the box at the right once **Bluetooth** is on. Tap **Scan for devices** and Lynx will scan for and show available **Bluetooth** devices under **Bluetooth devices**.
- Tap the **SiriusXM Lynx Home Dock** name in the list. Lynx will connect with the dock. If successful, the **Connected to...** message will be displayed below dock name. The **Bluetooth** Indicator Light on the dock will blink rapidly 3 times during the connection process and then remain on indicating that your Lynx is now connected.

Actual distance may vary depending upon the location of the SiriusXM Lynx Home Dock and the environment in which you are using Lynx. If you are out of range for more than 1 minute, you will have to re-establish the **Bluetooth connection.

Install the Indoor/Outdoor Home Antenna and Subscribe to Satellite Radio

This step is optional and only necessary if you will be subscribing to SiriusXM Satellite Radio. The Indoor/Outdoor Home Antenna needs to be installed so that it has a clear view toward the satellites in the south sky.

- Open the antenna clamshell approximately half way, and place the antenna in a window that faces south. Place the antenna on the windowsill making sure it faces the glass and not the window frame. There should be nothing outside the window which would block the antenna's clear view of the sky, such as a house, a building, trees, or shrubs.

Not sure which way is south? Think about where the sun rises (in the east) and sets (in the west). Then stand so that east is to your left and you'll be facing south. Is there a window in the direction you're facing? Place the antenna in that window.

- Lynx will check the signal strength. If **Signal Found** is displayed, tap **Continue** to proceed with the audio check. If Lynx displays **No Signal/Check Antenna**, try repositioning the antenna in a different south facing window, and tap  to check the signal strength again.

If you were unable to find an indoor location where the antenna could receive the signal, you will need to place it outdoors instead, facing the south sky. You can also go to **www.siriusxm.ca** for additional help and support for installing the Indoor/Outdoor Home Antenna.

If you have connected the Indoor/Outdoor Home Antenna, but have not yet subscribed to SiriusXM Satellite Radio, follow the instructions on the **Activation** screen to subscribe. You may need to turn Lynx off, and then on again to show the Activation screen.

- You will need the Radio ID, which can be found:
 - on the **Activation** screen
 - by tuning to channel 0
 - on a label on the bottom of the gift box
 - on the label inside the rear cover of LynxThe Radio ID does not use the letters I, O, S, or F.
- Lynx should still be in the SiriusXM Lynx Home Dock and displaying the **Activation** screen. To subscribe:
 - By phone:** Call **1-877-438-9677**
 - Online:** Go to **www.siriusxm.ca**
- Activation usually takes 10 to 15 minutes after you have completed the subscription process, but may take up to an hour. We recommend that Lynx remain on and in the dock until subscribed. Once subscribed, you'll be able to tune to the channels in your subscription plan.

If Lynx has a Wi-Fi connection, but you have not yet subscribed to SiriusXM Internet Radio, Lynx will prompt you to set up Internet Radio. Follow the instructions if you wish to subscribe to Internet Radio.

Hardware and subscription sold separately. **Service will automatically renew for additional periods of the same length as the plan you choose until you call Customer Care to cancel. See our Customer Agreement for complete terms at www.siriusxm.ca.** Activation fee and other fees and taxes apply. All fees and programming are subject to change.

Remote Control Button Functions & Battery

Pause and Replay Buttons:
Pause/Play button **II**
 Pauses or resumes playing of the currently tuned channel.

Rewind button **◀◀***
 Rewinds through content so you can hear-that-again. Tap to rewind to the beginning of a song or show segment. (Press+hold to continuously rewind through content.**)

Fast-Forward button **▶▶***
 Advances through content until live radio is reached. Tap to advance to the next song or show segment. (Press+hold to continuously fast forward through content.**)

Numbers 1-5
 Selects the corresponding favourite channel in the current favourite page on the Now Playing screen.

Mute
 Silences the audio.

Direct
 Directly tunes a channel by entering the channel number with the number buttons.

*Internet Radio music channels, and Radio Replays, are limited to 1 rewind and up to 5 skip forwards per hour (other channels may have same restrictions).

Power Button
 Press for 3 seconds to turn Radio On; press and hold to turn Radio Off.

Tune Up/Down Channels
 Immediately tunes up or down the channels.

Jump
 Jumps to the channel to which you had previously been listening.

Numbers 6-0
 Selects the favourite channel page, i.e., 6=page 1, 7=page 2, etc.

FM (PowerConnect only)
 Toggles through the FM presets. If no FM presets have been set, opens the **FM Settings** screen.

Battery Replacement. Turn the Remote Control over and remove the battery cover. It is best if you remove the battery door by inserting your fingernail in the center of the gap between the door and the back of the remote. Apply a little pressure and the door will pop open. Observe the orientation of the battery, then slide it out and replace it with a CR2025 battery. Reinstall the battery cover.

Bluetooth Home Dock Buttons & Connectors

ANT (Silver)
 Connection for the Indoor/Outdoor Home Antenna.

POWER (Red)
 Connection for Home Power Adapter.

AUDIO (Green)
 Connection for stereo system or powered speakers.

Bluetooth Button
 Tap to enter *Bluetooth* connection mode. If connected, tap to disconnect. If previously connected, tap to reconnect without placing Lynx in the dock.

Bluetooth Indicator Light
 Blinks slowly when in discoverable mode; blinks fast when connecting; is steady when connected.

Specifications

System
 Power Requirements: 5 V DC, 1.6 A (max)
 Operating Temperature: -4°F to +122°F (-20°C to +50°C)
 Audio Output: 2.0 Vrms (max)

Bluetooth Home Dock
 Dimensions: 4.5 in (width) x 2.1 in (height) x 1.9 in (depth)
 115 mm (width) x 54 mm (height) x 49 mm (depth)
 Weight: 5.1 oz (145 g)
 Audio Connector: 1/8 in (3.5 mm) female
 Antenna Connector: SMB male

Remote Control
 Dimensions: 2.2 in (width) x 4.2 in (height) x 0.4 in (depth)
 55 mm (width) x 105 mm (height) x 10 mm (depth)
 Weight: 1.3 oz (37 g)
 Battery: CR2025 (3 V)

Bluetooth Profile: Stereo Audio (A2DP)
